Outer Barrier Reef Full Day Tour to Agincourt Reef by Quicksilver Cruises with Coach Transfers from Cairns and Northern Beaches

Quicksilver takes you to Agincourt Reef, at the very outer edge of the Barrier Reef. Here, special reefs known as 'ribbons' run parallel to the Continental Shelf. Adjacent to the Coral Sea trench, these ribbon reefs are recognised as the most pristine eco-systems in the reef's environment. Clear water provides the best possible underwater visibility, encourages rich coral growth and supports spectacular marine life. As the region's outer reef pioneer, we chose the best location available to show you nature's finest.

Entering the dramatic beauty of the Great Barrier Reef is an extraordinary experience. It's a day that engages all your senses, lifts your spirit and takes you into another realm. Sharing the wonder of the world's largest living entity, realising its breathtaking colour and majesty, seeing nature at its most perfect is an awakening and, quite simply, the memory of a lifetime. Come and experience nature's finest with Australia's best. At Agincourt ribbon reef, you'll feel as if you've embraced paradise.

Snorkelling is one of the many activities included in your day and is one of the best ways to view the incredible underwater world of the Great Barrier Reef. Our friendly crew are on hand to show you how. On your journey out to Agincourt Reef, you can view an instructional video on how to snorkel to teach you the right techniques.

Semi-submersible coral reef viewing tour

Even without entering the water, you can stay dry and explore the stunning reef from the comfort of a Quicksilver sub. Seated just one metre underwater, experience a diver's view of the reef as you glide slowly through the reef lagoons and colourful coral gardens in air conditioned comfort. The semi-submersible coral reef viewing tour takes approximately 25 minutes and includes an informed commentary on the marine life observed during the journey and an overview of the wonders of the Great Barrier Reef.

Underwater Observatory

Watch the fish feeding from Quicksilver's unique viewing platform and underwater observatory located directly in front of the platform.
