THE RAINY DAY SPECIAL

Mostly, days in the Blue Mountains are sparkling, bright sunshine, clear skies. But sometimes it does happen that the mist rolls in and the rain comes down.

Good News! The Mountains are AWESOME on a misty day – the grey-blue haze of the forests bursts into dazzling shades of green, the trees dress up in cloaks of grey mist, and walking along the clifftop path feels like striding through pillowy clouds. Best of all, when the heavens really open up, the waterfalls come to shouting, joyous life.

Here are some of the best places to enjoy the Blue Mountains on one of the wet and wonderful days.

TIP: In the mountains weather changes fast – a grey day can turn good (or a good day turn wet and cold) quicker than you can say "wish I'd brought my sunhat/warmest jacket/gumboots". Save your shivers by wearing layers, and pack a light rain jacket just in case.
