• OVERVIEW •

Mandurah Dolphin & Scenic Marine Cruise

Mandurah is Western Australia's second-largest city, situated under an hour from Perth. Best known for its spectacular waterways, Mandurah offers a unique blend of canals, estuaries, rivers and oceans, all populated with stunning marine life.

WA's largest population of Bottlenose Dolphins are like part of the family in Mandurah. The Peel-Harvey Estuary is also home to more than 130 different species of birds, including many rare migratory shorebirds. The Peel-Yalgroop Wetland is recognised as a site of international significance under the Ramsar Convention on Wetlands.

Mandurah Dolphin & Scenic Marine Cruise

Discover the unique marine world that Mandurah is so famous for, on an interactive 1 hour 15 minute cruise through the city's calm, inland waterways.

Spot playful wild dolphins as they feed, rest and play in their natural environment. Mandurah is home to Western Australia's largest population of residential Indo-Pacific bottlenose dolphins – around 120 dolphins reside here!

Renowned for being one of Australia's oldest fishing towns, Mandurah's waterways produce some of the most highly prized seafoods including the blue swimmer crab and Western Rock Lobster. Watch as our tour guide showcases how to catch these iconic creatures and see them up close in the onboard live tank.

Explore the city's 20+ kilometres of illustrious canals, framed with luxurious homes and then cruise into the region's vast wetlands, protected by the United Nations as a natural site of worldwide importance. Here you can use the binoculars to look for pelicans, ospreys, black swans and other water birds.

Along the way you will also see significant heritage protected landmarks and important cultural sites that still stand today.

Kids (and kids at heart), help the Captain drive from the custom steering wheel at the front of the boat.

Sit back and relax, as you take in the sights and help yourself to complimentary coffee.

Your knowledgeable tour guide and captain will provide live commentary throughout the cruise. If you have any questions about the unique marine environment and region, don't hesitate to ask them!
